Files can be downloaded from any computer from our high speed servers. So try our free and simple filehosting service now. It is also allowed to link to the download page from websites and communities. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Just upload the file you want to share with your friends and we send you a download link to your file. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Unfortunately, we can't make that part free. Keep your files private, or send your download links only to friends or family. You decide who you want to share your files with. Using file, you can circumvent those limits without paying to upgrade your team chat service. You can upload any type of file (movies, music, documents, images, zip files and more). We have no file size limit. You don't need any special software installed to be able to download your files. Alternatively you can choose to share your download links on blogs, forums and social networking sites. filehosting provides an easy possibility for you to send large files to your friends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Simply upload your file and share the link. Any file in anyformat can be uploaded and downloaded for free. There are no restrictions on the number of times a file can be downloaded. Files transferred the old-fashionedway tend to pile up and be forgotten about, eventually costing you money in data storage fees. Why pay storage fees for a file that you just wanted to send to afriend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. No account or credit card is required toget started. File is free to use with no gotchas and no hidden fees. If only we could, we surely would! On the other hand, using file can ac
